

Gain the Ultimate Form of Financial Security

Attend **Free** a Special Workshop with Gary and Merri Scott

(Gary A. Scott's WORLD REPORTS, International Service Center, Inc., Naples, Florida)

Dear International Friend,

Because I have solved a thirty year puzzle, you can now gain two assets of such power they can bring financial security forever. If you will let me explain the puzzle for a moment and how it was solved, I will then share these assets and how you can join us at a free workshop at the beautiful Safety Harbor Spa (near Clearwater). At this workshop, you will learn how to attain these two wealth-enhancing assets at no charge. (No sales will be involved and nothing will be sold at that workshop or in this letter - I promise.

Here is the puzzle. Merri and I have been conducting an international business, writing books, reports and conducting seminars on international investing for nearly 30 years. Over that time we have been lucky to discover our fair share of really hot money making ideas. I am talking about once in a lifetime deals that turn small amounts of money into fortunes. In some cases, the ideas were the result of intensive research. In other instances, I will be honest, we were just lucky arriving in the right place at exactly the right time. We always informed our readers of the ideas and have seen fortunes made (or saved, in instances when the idea was that a market would fall) from these global ideas we shared.

The puzzle is that not all of our readers have taken advantage of these ideas that they paid us to find! Instead of everyone making fortunes, there has instead been three kinds of responses. The first response we love. Readers have taken an idea, integrated it into their lives in an intelligent, balanced way and really improved their lives. The second response, inaction, has been puzzling. Some readers have missed these million dollar opportunities entirely. Their spirit of adventure, risk or understanding was such that they did or could not understand how to use the idea. Even worse, they saw the potential of the idea, but were of such low spirits that they were afraid to act. The third response has been the one which hurts! Some have actually managed to lose money on ideas, even as others were cashing in. These readers were thinking so unclearly that they managed to somehow goof up on almost foolproof ideas. Even worse, some readers have made fortunes, but then used the extra money as leverage to simply bring chaos and imbalance into their lives.

This puzzle was enormously frustrating. Our goal is to help our readers have better lives, to enjoy more prosperity. Until that goal is fulfilled, we keep looking for ways to do our job better. These three responses led us on a search for deeper, more basic truths about how to have, keep and enjoy wealth. This continual search has led us to deeper truths than most would ever read or hear about. Our search led us to the most powerful assets for enhancing your wealth, as I have promised to share. These assets are unlimited energy and a clear mind!

I have more important information to offer here because in our global travels, Merri and

I have also learned secrets on how to gain these two invaluable assets. For example, one of the biggest secrets (which shall seem so obvious - but is totally ignored) is that real permanent wealth requires good health. Yet have you ever had even one investment consultant, stock broker or banker share with you the connection between health and wealth?

In this day and age of high health care costs, I believe more portfolios are ruined and estates devastated by bad health and high medical costs than by taxation and lawsuits. Many spend their lives building estates simply to give it away to health professionals or hospitals. This is not a problem solved by health insurance either! Insurance may pay for some health costs (if your insurance is not cancelled or becomes too expensive or lacks full coverage for catastrophe), but insurance can never cover what poor health does to our thinking and our energy!

Our high stress world and poor health create more financial problems than just medical expense. Medicine might keep us alive, but being healthy, happy and financially secure are different matters.

Stress and poor health reduce our ability to think straight and sap us of energy, courage and strength we need to advance our wealth, health and well being. To invest and earn correctly, plus to keep and enjoy what we earn, we must have good health for clear minds and high energy. Learning this helped Merri and me realize that many readers miss million dollar opportunities simply because of foggy thinking and low energy. Many simply don't feel good enough and don't have enough energy to start out, follow up and stick to the effort it requires to make good investments and reap their benefits.

Luckily in our global travels, Merri and I have encountered as many amazing truths about health and having good energy as we have about investment. These secrets have improved our lives more than I can describe. In fact, the impact of these secrets have been so profound over the past decade (as we move into the second half of our lives) that more and more of our readers have ended up asking about health and energy.

Let's face it, 50, even 40, is an age when people can start to fall apart, especially when they live in a high stress business like ours which requires thousands of miles of travel year in, year out. Yet over the years, we feel far happier, with more energy and greater zest for life. At an age when many think about retirement, we are looking for new challenges, new places to go and wonderful things to do. Even our kids (now in their 20's and 30's) have a hard time keeping up.

Over the past decade, we have informally helped many of our readers improve their health. Many of the most dramatic, raving letters I now receive are from delegates whose life or fortunes have been improved from our advice on how to clear their minds and increase their energy, rather than economic advice. We have helped so many delegates dramatically improve their lives in this new way that we have decided to integrate more of this information on how to have clearer minds and more energy into our seminars.

To start this process two days before we conduct our International Business Made EZ workshop in Safety Harbor Spa, Merri and I will sponsor a free workshop which can make incredible improvements in your wealth through better health that brings a clearer mind and higher energy.

In a moment I will explain how you can attend this workshop which I guarantee you will find incredible at the Safety Harbor Spa free.

First, I want to share the amazing story of how I discovered the information and contacts you can gain at this workshop and why you can attend free.

Next page is a before and after picture I began investigating and found that the roots of this miraculous transformation came from Baghdad.

When you turn the page and read the “before and after”, your reaction may be like mine: “This cannot be true!” I was interested but the skeptic in me made me leery.

I investigated and discovered that this “before and after” story was released by the Sufi Foundation of America and is about a woman who enjoyed this transformation, in just weeks, after attending a workshop conducted by Adnan Sarhan - a Sufi master from Baghdad, who was sponsored by The Cathedral Church of St. John the Divine of New York for the purpose of introducing and teaching the Sufi way in the United States.

The word Sufi means purity, and Sufi masters have been active in Asia and the Middle East for thousands of years. They combine yogic-type exercise techniques with special diets and meditation to create life changing attitudes about health, thinking, energy and wealth. These attitudes create changes like the one you will see next page.

Adnan worked at The Cathedral Church of St. John the Divine in New York and was creating such amazing results that when his visa expired, the Cathedral asked our federal government to extend his stay. A federal judge, upon hearing of Adnan’s work, gave him a Green Card on the spot.

Later, the stories of his healings grew to such an extent that an heir of the R. J. Reynolds Tobacco Company (a philanthropist trying to undo a little of tobacco’s harm) gave Adnan a 40 acre camp surrounded by national forest, high in New Mexico’s mountains. Adnan works from that camp and conducts workshops every summer there, creating miracles like the one next page.

Adnan works from New Mexico in the summer and, through the other months, he travels the world conducting workshops. In London alone, over 1000 people attended his workshop there. Then he was booked up in Italy, Spain, France, Germany, the Netherlands, Canada, Scandinavia, Russia and Bulgaria.

This “before and after” story was sent to me by a grateful client who was trying to repay a favor I had given him. “Sure,” I said, “this story sounds great, but I want proof!” So Merri and I tracked Adnan Sarhan down and attended one of his workshops. For two reasons we were amazed, though not totally convinced.

First, while at the workshop, we met and heard dozens of additional before and after life-changing stories. One older medical doctor, for example, told us how his life-long astigmatism had disappeared. Suddenly, he could see like never before. An attorney, in one day, quit her lifetime habit of smoking and has never desired another cigarette again. A woman we met from Germany attended because she had been a wheelchair-bound, arthritic invalid. She told how she had not only thrown her wheelchair away, but danced for us to prove it! There were so many addiction-ending stories, from alcohol to drugs to chocolate, that I can’t even begin to remember them all.

But I am a well known financial writer. This means I am sent at least one scam deal a week. This has made me a dyed-in-the-wool skeptic. I wanted to try this out myself and feel what was going on...if anything.

PAGE OF GEORGEANNE’S PICTURE WILL FOLLOW

We attended one day of Adnan’s workshop and I agreed that there are no words I can use to describe how good I felt. I live in a high stress life with continual travel and deadlines. After just one day, my stress was gone, my energy increased and my sleep was like a baby’s. My appetite was suddenly reduced and I seemed to glide through my busy schedule. I felt lighter, happier, brighter, stronger and, most of all, my mind was much more clear. I seemed to have a broader perspective. Little problems which used to annoy me were simply solved. My intuition has become razor sharp and these feelings lasted! What more can I say?

But being the eternal skeptic, I tried another workshop just to be sure. I had similar results. This almost convinced me. Still I don’t like to try anything without tasting, so I invited Adnan to put on a workshop in Naples, my hometown. Naples is one of the richest towns in the U.S. with more millionaires per capita than any other U.S. city. I know my fair share of them and most are hard-nosed business men and women who don’t fool around. I decided to invite them all.

Getting Adnan to Naples should not have been easy. He is in incredible demand. He is a master of five Sufi orders. In his workshops, he brings energy, vitality, strength, well-being, joyous feeling and instant, shining, charming smiles. He is a drummer extraordinaire and puts on concerts and workshops all over the world. For example, he performed a drum solo to open the Earth Summit in Brazil. This summit was attended by leaders from all over the world. They were so impressed that they invited him to do a special, extra concert for just the world leaders. But I wanted to see if people I know and respect had results similar to mine, so I crossed my fingers and asked him if he would put on a Naples workshop. Some things are meant to be because he was touched by my request and agreed to stop in Naples on his way to his summer workshop in New Mexico from Europe.

ADNAN SARHAN'S Alchemical Workshops

*... change people from the worst to the best,
from the lowest to the highest,
from misery to happiness,
from an abhorrent physical condition
to an elegant, exuberant grace
from ugliness to pure vivacious beauty and
spirit of body, mind and heart
and you see that clearly in the pictures below.
"One picture is better than a thousand words."*

I was ...

and I became ...

ADNAN SARHAN is a master of the practical technique of the science of alchemy from the golden age of Baghdad that goes back to the 8th century. His method and knowledge startles and shocks people into a wakeful reality, to a permanent evolution to the highest, the finest and the best. Overall it makes them beautiful and charming, able to talk with their eyes when the eyes become a fountain of spirit and the universe its abundant source and when the heart becomes pure love. The fact that I am now sending this invitation to you for Adnan's workshop attests to the fact that my taste was a raving success. I invited friends, acquaintances and family, from all walks of life. Doctors, dentists, attorneys, real estate brokers and developers, accountants, teachers, publishers, bankers, investors, laborers and retired folks were there, plus my kids, over 100 in all.

They loved Adnan and the workshop! Many told me this was one of the most important events in their life. So, now I have invited Adnan to perform another workshop. Our sharing of these deeper truths about how to regain energy and clarity of mind are our gifts to you.

Adnan's work is really important and want to encourage this as a matter of the heart. At Adnan's workshop, all that is required is a true desire for a happier, healthier, wealthier life and you will find ways to improve your health and energy. This is the most important workshop I have ever helped arrange and we look forward to sharing it with you!

Sincerely, Gary Scott

Dear Adnan,

Thank you very, very much for being my teacher. I am incredibly grateful for the Sufi work. I have always had a desperate yearning for spiritual fulfillment and have explored many false roads of religion, support groups, and psychology. With you, my soul's thirst has been satisfied and I have been brought to tears of joy. You have shown me how not to "know" of the moment but to be in the moment.

You have taught me that to live in the past or the future is to surpass the boundary of God and that to be in the moment is heaven. I have learned through the Sufi work that I am whole and complete; that God is within me. Within faith I am on a beautiful path. Before you were my teacher I knew God existed, and now you have introduced me to a communion that brings awe and elation. I am eternally grateful for this connection to God. You have taught me how.

Thank you. Love, Caren
